

Two Striper®

Two Striper®

Carbopost®

Carbopost® is a fiber reinforced composite post that's as strong as metal and reduces shear stress by 50% by transmitting stress progressively and regularly.

Made of 60% T700 carbon fibers and 40% epoxy resin Carbopost® has proven to have the same mechanical behavior as metal posts.

- Shock absorbing
- Radiopaque
- Silanated for superior adhesive qualities
- Autoclavable up to 135°C/ 275°F
- Bio-compatible and corrosion free
- Anatomical shape and 5 different diameters (0.8mm – 1.6mm)

| Mechanical Properties | |
|-----------------------|------------|
| | Carbopost® |
| Elastic Modulus | 141GPa |
| Shear Strength | 23.9 MPa |

| Carbopost® Kits | | | |
|--------------------|--|---|-------|
| C801001 | Basic Kit : 50 assorted posts (1.0, 1.2, 1.4, 1.6) and 4 matching finishing drills | | |
| C801002 | Intro Kit: 20 assorted posts (1.0, 1.2, 1.4, 1.6) and 4 matching finishing drills | | |
| Carbopost® Refills | | | |
| 10 Posts/Pack | | 10 posts/pack with matching finishing drill | |
| C802013 | Ø 0.8 | | |
| C802001 | Ø 1.0 | C802006 | Ø 1.0 |
| C802002 | Ø 1.2 | C802007 | Ø 1.2 |
| C802003 | Ø 1.4 | C802008 | Ø 1.4 |
| C802004 | Ø 1.6 | C802009 | Ø 1.6 |
